

# Technical Specification

## Equipment Stand for Raised Flooring

- ☐ Equipment Stands are made with fully welded construction. Material is carbon steel, 2" square tubing, conforming with ASTM A513.
- ☐ A 12 gauge sheet of galvanized steel, conforming with ASTM A653, is welded to the top to provide a smooth and level surface. Cutouts can be supplied to provide cable access or venting.
- ☐ Gussets, constructed of 3/16" hot-rolled steel conforming to ASTM A36, are welded in corners to provide additional strength.
- ☐ Leveling legs are provided with 3" adjustability. Steel plates with bolt holes can be furnished to legs, in place of leveling legs, upon request.
- ☐ Total custom capability allows us to meet a wide range of customer needs. We can supply special sizes, shapes, holes, or cutouts.
- ☐ Finish is powder coated flat black. Other colors available upon request.
- ☐ Stands are manufactured to be able to support weight of equipment such as transformers, PDU's, battery cabinets, etc.
